## MAPAL employees help the dragon children

The employees of MAPAL support the Radio 7 Dragon Children with 5,000 euros. The employees want to use the money to help children from the region who are sick or in need and to promote corresponding projects. The management participated in the donation and rounded up the amount. Collecting for the Radio 7 dragon children has a long tradition in the company. The campaign was initiated in 2010 by employee Thomas Schuele and his colleagues in the shipping department. Year after year, MAPAL eagerly collects in the production halls and offices, now organised by the works council with the support of the trainees. Because the Radio 7 regional studio in Aalen was dissolved and moved to Ulm, it was not possible to hand over the cheque in person. The 5,000 euros will be transferred.
